### **REASONS FOR ALLOWANCE**

1. Claims 1-72 are allowed.
2. The following is an examiner's statement of reasons for allowance:
3. The closest prior art was found to be Novak et al (US 6,176,102). Novak teaches a method of refrigeration using various fluorinated solvents. In table 3, Novak teaches a composition containing the applicant's claimed HFO-1225 (i.e. pentafluoropropene; C<sub>2</sub>HF<sub>5</sub>). Novak however fails to teach the pentafluoropropene in combination with HFO-1243zf, HFC-152a, or HFO-1234ze. Novak further fails to provide the necessary motivation for substituting these three compounds for those compounds taught in table 3. As such the applicant's claim to the azeotropic composition of claim 1 has been found to be allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
